Abraham Tikuye

Software & AI Developer

Timisoara, Romania | linkedin.com/in/abraham-tikuye-31a485283/ | github.com/abrahamt17

Software and AI-focused developer with a Computer Science background and current Engineering Management studies. Builds web products in TypeScript, React and Next.js, integrates language models into real workflows, and tests what he ships.

EXPERIENCE

AI Engineer — AiGot SRL

Italy

- Worked on AI-focused software and automation initiatives in a company developing technology products and SaaS solutions.

Software Developer — National ID Ethiopia (Fayda)

1 year · full-time

Ethiopia

- Designed and implemented the frontend interface for a grievance management workflow.
- Structured the interface for operations staff: sidebar navigation, dashboard summaries, a case queue and case detail inspection.
- Built the table interactions: search, pagination, record inspection and updates.

SIC competition — Contender, technical product lead

- Competed with a team entry where I led the technical side: I built the product, managed my teammates, and worked on the business plan.

PROJECTS

AeroMind — Co-founder, product and prototype development

Working prototype, not deployed

- Built the full prototype in Next.js and TypeScript with separate trainee and psychologist portals.
- Implemented an AI tutor that answers from lesson material using embeddings and retrieval, with rules that stop it diagnosing or judging fitness to fly.
- Put all model calls behind one provider interface, with a labelled fallback when no AI provider is configured.

AgentCover — Founder, product and technical development

Phase 1 built

- Built the multi-tenant foundation: authentication, organisations, roles, invitations and audit log.
- Enforced access with Postgres Row Level Security and tested the rules on an in-process Postgres.

CreatorPay — Developer

Prototype with a public demo

- Built campaign, payroll, escrow and batch-payout interfaces in React and TypeScript on Supabase.
- Defined the SQL schema and seed data and documented the API.

EDUCATION

Engineering Management studies — Università degli Studi di Perugia

2024 – present

Perugia, Italy. In progress.

Erasmus mobility — Universitatea Politehnica Timisoara

Timisoara, Romania. Exchange period within the Engineering Management studies. Not a separate degree.

Undergraduate studies in Computer Science — University of Gondar

2021 – 2024

Gondar, Ethiopia. Did not complete the degree.

SKILLS

Languages & frameworks: TypeScript, JavaScript, React, Next.js, Tailwind CSS, Redux, Node.js
Data & backend: Supabase, PostgreSQL, Row Level Security, REST APIs
AI: LLM API integration, Structured output, Embeddings and retrieval, Prompt design and guardrails
Quality & tools: Vitest, Playwright, Jest, Git, GitHub
